INDEX: VOLUME 36

AUTHORS, SUBJECTS AND TYPES

Type: application of theories or models, 83-99, 100-114, 253-273.
Type: applied mathematical theory, 41-56,115-132.
Alpha-core, 115-132.
Artificial intelligence, 64-79, 133-137.
Artificial neural systems, 1-33.
Avoidance, 298-310.
Autopoeisis, 161-178.
Badalamenti, Anthony F., 100-114, 159.
Bapi, Raju S.: see Wullianallur Raghupathi, 160.
Browne, Eric C., 148-156, 160.
Bargaining, 179-195.
Behavior measurement, 140-147.
Beta core, 115-132.
Biofeedback, 253-273.
Biopsychological model, 253-273.
CAD/CAM, 64-79.
Channel and net subsystem, 1-33.
Circadian rhythms, 253-273.
Computer-system limits, 64-79.
Computer simulation, 148-156.
Connectionism, 133-139.
Connectionist models, 1-33.
Constructivism, 274-297.
Constant-sum games, 115-132.
Cooperative non-sidepayment games, 115-132.
Cryptographic protocol, 34-40.
Cyert, Richard, 81.
Decision-making, 57-63, 148-156.
De Greene, Kenyon B., 64-79, 80.
Dominant coalition, 64-79.
Dyad, 100-114.
Election system, 34-40.
Employment/unemployment, 64-79.
Type: essay, 64-79.
Evolution, 64-79.
Evolutionary dynamics, 161-178.
Felsenthal, Dan S., 57-63, 80.
Fidelman, Uri, 274-297, 314.
Field theory, 64-79, 298-310.
Flexible systems, 64-79.
Flood, Merrill M., 41-56, 80.
Governance, 41-56.
Greenwood, Dan, 1-33, 80.
Group, 64-79.
Helbing, Dirk, 298-310, 314.
Individual pedestrians, 298-310.
Information processing subsystems, 196-223.
Input transducer, 140-147.
James, Peggy A.: see Browne, Eric C., 160.
Jasnoski, M. Banks, 253-273, 314.
Job design, 64-79.
Kantism, 274-297.
Kaplan, Marvin L., 161-178, 237.
Kaplan, Netta R.: see Kaplan, Marvin, 237.
Klein, Jonathan L., 224-236, 238.
Kondratiev phenomenon, 64-79.
Langs, Robert J., 100-114, 159.
Laing, James D., 179-195, 237.
Lambda transfer value, 115-132.
Lee, Joohee, 115-132, 159.
Levine, Daniel S.: see Wullianallur Raghupathi, 160.
Living systems theory, 179-195, 196-293, 239-252.
Majority, 57-63.
Majority voting game, 148-156.
Type: mathematical model, 1-33, 34-40, 41-56, 57-63, 140-147, 179-195, 298-310.
Type: mathematical simulation, 148-156.
Multidimensional policy spaces, 148-156.
Municipal administration, 83-99.
Type: nonquantitative theory, 161-178, 196-223, 224-236, 239-252, 274-297.

Michener, H. Andrew., 115-132, 159.
Miller, James Grier, 239-252, 311-313, 314.
Miller, Jessie L., 239-252, 315.
Miller, Jessie L.: see Miller, James Grier.
Miller, Martin A.: see Browne, Eric C., 160.
Motor subsystem, 140-147.
Muscle behavior, 140-147.
N-person game theory, 115-132.
National competitiveness, 64-79.
National decline, 64-79.
Nominalism, 274-297.
Nonliving things, 1-33.
Neural networks, 1-33.
Neural process, 133-139.
Nurmi, Hannu, 34-40, 80.
Ontology, 274-297.
Open systems, 224-236.
Organ, 140-147.
Organization, 57-63, 64-79,179-195, 196-223, 239-252.
Paradoxes, 57-63.
Paradigm change, 64-79.
Pathology, 239-252.
Platonism, 274-297.
Pseudo systems, 224-236.
Psychoneuroimmunology, 253-273.
Public-key cryptosystem, 34-40.
Quasi systems, 224-236.
Queues, 298-310.
Quorum, 57-63.
Raghupathi, Wullianallur, 133-139, 159.
Rasegård, Sven, 83-99, 159.
Reimer, Mark S., 115-132.
Salomaa, Arto: see Nurmi, Hannu, 80.
Salzer, Mark S., 115-132, 159.
Schkade, Lawrence L.: see Raghupathi, Wullianallur, 160.
Secret ballot, 34-40.
Selection, 298-310.
Self-organization, 161-178.
Simms, James R., 140-147, 160.
Slotnick, Benjamin: see Laing, James D., 237.
Social choice, 41-56.
Social systems, 224-236.
Society, 64-79.
Societies, 57-63.
Status quo, 179-195.
Storfer, Miles, 157.
Supranational systems, 57-63, 64-79,179-195.
Symperifor, 140-147.
Synchronous systems, 253-273.
Synchrony, 253-273.
Systems theory, 64-79.
Technology-impact trends, 64-79.
Temporal mode, 274-297.
Territory, 298-310.
Taormina, Robert J., 196-223, 237.
Voting, 41-56, 57-63.
Voting cycles, 148-156.
Viable systems, 83-99.
Warner, Rebecca M.: see Jasnoski, M. Banks, 315.
Westman, Jack C., 311-313.
